

TVET & SBAT Guide 2027

TAFE-delivered Vocational Education and Training (TVET)
School-based Apprenticeships and Traineeships (SBAT)

In the spirit of reconciliation, TAFE NSW acknowledges Aboriginal and Torres Strait Islander Peoples as the Traditional Custodians of Country throughout Australia, and their connections to land, sea and community. We pay our respect to their Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples today.

The pathway to a career

Are you about to start your final years of schooling but already know your perfect career? Or maybe you've got an idea of what life after school could look like, but want to try it out first?

Either way, you'll get a head start while still at school with a TAFE-delivered Vocational Education and Training (TVET) or School-based Apprenticeship or Traineeship (SBAT) course. From Animal Care to Community Services to Music Industry courses, we've got just about all interests and industries covered.

Where could studying at TAFE NSW lead you?

Combining TAFE and school studies offers direct pathways to further education and employment options. These pathways may include:

full time and part time TAFE NSW courses that give you job-ready skills in a broad range of careers

pre-apprenticeship courses that give you skills to help enter the workforce

apprenticeships and traineeships that combine formal studies with work and on-the-job training

recognition of prior learning gained through formal training, HSC studies and employment

accredited training may provide credit towards TAFE NSW VET courses and higher education degrees, along with university courses

What is TVET and SBAT?

TAFE-delivered Vocational Education and Training (TVET) and School-based Apprenticeships and Traineeships (SBATs) are both ways for high school students to start, and/or complete, a vocational qualification while completing their HSC.

Students are able to combine their school studies with nationally recognised training, gain practical skills, and build pathways into employment or further study after school.

Benefits of TVET and SBAT pathways

Students undertaking TVET or an SBAT will have the opportunity to:

- undertake nationally recognised training while still at school
- combine HSC studies with vocational training
- gain practical, job-ready skills valued by employers
- have training that will contribute to HSC units
- access pathways into employment, apprenticeships, traineeships, or further study
- study in courses delivered by TAFE NSW teachers and industry specialists
- have the opportunity to gain credit towards the calculation of their ATAR

Key differences

TVET

- May include a mandatory work placement (course dependent)
- Students have the opportunity to undertake either a partial or full nationally recognised qualification
- For more information, visit: nsw.gov.au/education-and-training/nesa/curriculum/vet

SBAT

Combines:

- Paid employment with structured on-the-job training
- Formal study

Leads to:

- partial or full completion of a nationally recognised qualification
- progress toward a full apprenticeship or traineeship
- School-based Apprentices may continue into the second year of their apprenticeship after finishing school

Specialisation courses

Specialisation courses are delivered concurrently with 240-hour TVET or SBAT courses. They can contribute additional units of HSC credit (depending on the HSC syllabus for the course) and can allow you to complete more of a qualification (potentially obtaining a full qualification) or in some cases, you could progress to a higher level qualification.

TVET and SBAT delivery options

Access

Delivery adjusted to suit needs of students with disability, often in a smaller face-to-face class.

Blended

A combination of different delivery modes: for example, some face-to-face with some self-paced online units.

Block release

Delivery is face-to-face and scheduled in blocks throughout the course. Blocks may be two or more days.

Face-to-face

Scheduled, real-time, teacher-led delivery at a physical location.

Online campus

Self-paced, independent learning via an online platform, with no physical attendance required.

Virtual

Scheduled, real-time teacher-led delivery in a virtual classroom.

Virtual with workshops

Scheduled, real-time teacher-led delivery in a virtual classroom, plus mandatory face-to-face workshops.

How to use this guide

ATAR This course can contribute to your Australian Tertiary Admissions Rank (ATAR) where you complete a minimum 240-hour course and sit the HSC examination.

WP This course includes mandatory work placement hours.

SBAT This course may be offered as a School-based Apprenticeship or Traineeship. The qualification available for school-based apprentices and trainees may vary from the qualifications available for TVET students.

SS This course area has additional specialisation study available. You must be currently studying the 240-hour course at school or TAFE NSW.

BEC This is a Board Endorsed course that contributes to your Record of School Achievement (RoSA) or HSC, but will not count towards your ATAR.

ICF This is an Industry Curriculum Framework course that contributes to your HSC, and can also contribute towards your ATAR.

VV Virtual VET courses are teacher-led virtual classrooms and may include workshops, and/or work placements.

OC These courses are offered through the online campus and are supported with online study materials accessible 24 hours a day, seven days a week.

S5 Stage 5 refers to students in Years 9 and 10.

Aboriginal and/or Torres Strait Islander Cultural Arts

BEC

Begin to use art to proudly reflect your cultural identity. You'll learn your practice through collaborative community art projects, create a portfolio of your work and build a strong foundation to continue your art journey. This course encourages creativity, cultural awareness and appreciation of First Nations perspectives through guided, respectful learning.

Is it right for you?	Possible industry skills	Potential career pathways
- Do you have a lived understanding of Aboriginal and/or Torres Strait Islander peoples? - Do you understand that local cultural knowledge necessary to achieve competency in some of the units may only be accessible to Aboriginal and/or Torres Strait Islander people? - Do you have an interest in cultural arts and history? - Do you have the ability to work closely with Aboriginal and/or Torres Strait Islander communities?	- An understanding of your Aboriginal and/or Torres Strait Islander Cultural Identity - Research skills - Cultural arts practices - Artistic skills - Work safely in a creative cultural arts studio	- Work collaboratively on community art projects - Liaise with industry professionals and create a community of artists - Use industry-specific programs and artistic equipment - A strong pathway to continue your study and enhance your career opportunities

Example of possible course pathways

For more information on locations and courses offered, please speak to your careers adviser.

* This course is superseded. You can still enrol in this course, and you will be contacted if you need to transition into the next version when it is available.

The units of competence that will be delivered as part of this course option will be listed in the EVET system for your chosen location or delivery pattern. You should consider the full EVET details, including units, location and other requirements with your school before accepting the EVET Offer provided to you by your school as part of the EVET course acceptance process. Partial completion comprises a range of Units of Competence from the qualification identified; these may contribute to completion of the full qualification or to other nationally recognised training.

Aboriginal Languages

BEC

S5

Strengthen your voice and identity. Immerse yourself in Aboriginal Culture and improve your skills to communicate effectively and respond in social and cultural settings. This TVET course offers a strong pathway to continue your study and enhance your career opportunities.

Is it right for you?	Possible industry skills	Potential career pathways
• Do you want to learn how to recognise and understand local Aboriginal identity? • Would you like to link language to identity? • Are you interested in developing your listening and speaking skills in language? • Do you want to read and write words in language? • Would you like to discuss sensitive issues surrounding your culture?	• Participate in conversations and written text in your local language • Develop learning resources • Deepen your connection to culture • Work to protect and promote Aboriginal languages • Read and write words in Aboriginal Language	• Cultural tour guide • Aboriginal education consultant • Language tutor • Local Aboriginal Land Council employee

You should consider the full EVET details, including units, location and other requirements with your school before accepting the EVET Offer provided to you by your school as part of the EVET course acceptance process. Partial completion comprises a range of Units of Competence from the qualification identified; these may contribute to completion of the full qualification or to other nationally recognised training.

Types of information available for employees

Employees should be able to locate information about the use of company property in their employee handbook. This information is important as it outlines the policies and guidelines regarding the proper use of company assets, such as computers, equipment, and facilities. It helps employees understand their responsibilities and the expectations set by the company regarding the use of these resources. This information is crucial for maintaining a productive and respectful work environment.

- The company's annual report
- The company's list of current job openings
- The use of company property
- The number of vacation days that an employee has taken

Business Services

ATAR

WP

SBAT

Frequently asked questions

Does my TVET or SBAT course contribute units towards my HSC?

Yes, all Stage 6 TVET and SBAT courses count towards your HSC units. Stage 5 TVET courses contribute to your Record of School Achievement (RoSA).

Can my TVET or SBAT course be used in the calculation of my ATAR?

Only some Stage 6 TVET and SBAT courses count towards an ATAR. These courses are specified by NESA, and require students to complete a full 240 hours of delivery, as well as sit the HSC exam for the subject. You should check with your school careers adviser to ensure that you have a suitable pattern of study to be eligible for an ATAR.

How long will the course run for?

The course will run between one and two years, depending on the pattern of study undertaken. For School-based Apprentices, the course will continue post completion of the HSC.

What delivery options are available for TVET or SBAT courses?

TAFE NSW has a variety of delivery options to suit: face-to-face learning at TAFE NSW locations or at school, online, via a Connected Learning Centre (CLC), teacher-led virtual classrooms, workshops or as block delivery (which may involve attendance during the school holidays).

How are TVET or SBAT courses delivered?

TVET and SBAT courses have the same NSW Education Standards Authority (NESA) requirements as other HSC courses. This means you will regularly attend classes and complete the set assessments. Most courses take between one and two years to complete and some classes may also extend outside of school hours and/or include work placement. In some cases, SBAT students may be required to join a mainstream delivery, which could be delivered in a block delivery style. This will be communicated on a case-by-case basis.

When do I attend class?

Depending on the delivery mode and the arrangement between your school and TAFE NSW, classes may require attendance at TAFE NSW on a weekly basis, block periods or have an online or connected classroom timetable. Class sessions may extend beyond school hours, including school holiday periods. SBAT students will have attendance information provided as part of the enrolment process.

What are the requirements of a TVET or SBAT course?

TVET and SBAT courses carry the same requirements as normal school courses. Attendance is mandatory, unless prior consent is given. TAFE NSW requirements vary for each individual TVET and SBAT course and will be clearly explained by the teacher at the start of your course. SBAT requirements will be clearly outlined in a student's individual Training Plan.

How do I apply?

Speak with your school careers adviser or VET coordinator to select a course that best meets your educational and vocational needs. Your school will then assist you with the application process. If you are applying for a School-based Apprenticeship or Traineeship, a Training Plan Proposal (TPP) must be submitted to TAFE NSW. Please speak to your Careers Adviser for assistance.

What support services are offered?

We believe flexibility and support are critical to ensuring the success of our students. That's why we have a number of support teams and services available to you:

- Aboriginal student support
- Childcare facilities on-site at selected locations
- Car parking on-site at selected locations for your safety and convenience
- Academic support teams
- Career counselling

It is critical that any student support requirements are provided when applying for a TVET or SBAT course, so that TAFE NSW can assess the most appropriate form of support services.

Can I get assistance if I have a disability?

TAFE NSW is committed to ensuring that learners with disability receive access, support and equal opportunities whilst learning. Student support needs are assessed prior to enrolment. Support is available to all students, when the school has disclosed the need for support in the EVET Student Profile. For SBATs, the TPP and enrolment forms must reflect the need for support.

For more information about support services available at TAFE NSW, visit tafensw.edu.au/student-services

What is work placement?

Work placement is a mandatory requirement for many TVET courses. It gives you the chance to apply the skills you've learned in a real industry setting, as well as pick up new ones "on the job." SBATs meet mandatory work placement hour requirements through on-the-job training.

Work placement will help you to:

- Gain insights into the kind of career you'd like to have
- Make informed decisions about further training and study
- Graduate job-ready and more employable

TAFE NSW will support the coordination of your work placement opportunities. You can suggest an employer and we can support you in working to secure a placement with them.

Open doors to a new life with a School-based Apprenticeship and Traineeship

School-based Apprenticeships and Traineeships (SBAT) combine paid work, school and TAFE NSW training, to help you gain valuable work skills and experience while you are studying for the HSC.

Get started now by discussing your options with your school careers adviser.
